

# ITA – additional drip eliminator

Type	for IRB/IRT fan type	piping dimension	[mm]				weight [kg]
			A	B	C	D	
ITA 200/40-20	200	400×200	420	220	440	240	4.00
ITA 225/50-25	225	500×250	520	270	540	290	5.00
ITA 250/50-30	250	500×300	520	320	540	340	6.00
ITA 285/60-30	285	600×300	620	320	640	340	7.00
ITA 315/60-35	315	600×350	620	370	640	390	7.20
ITA 355/70-40	355	700×400	720	420	740	440	9.00
ITA 400/80-50	400	800×500	820	520	840	540	11.70
ITA 450/100-50	450	1,000×500	1,020	520	1,040	540	13.50

## Technical parameters

### ■ ITA – additional drip eliminator

- serves to separate condensate drops behind the air cooler
- used after consultation with our technical department for air speeds above 4 m/s
- suitable for DIRECT AIR assembly units
- the eliminator tray is connected to the waste pipe through the odor cap
- maximum temperature resistance of 130 °C
